

IRISH & CULTURE

Ashton & Niall

What we have achieved

- A Gramadach na Gaeilge Moodle page has been approved and is in the stage of having lecturers submit grammar documents, which will be made available to all students of MIC.
- We will provide details and information about this page to the incoming Irish & Culture Officer, so as to ensure that this page is available to all students in September.
- We have strengthened the relationship between MISU & Conradh na Gaeilge. We are confident that the links that we have built up will be continued in the coming years, especially between Conradh and the Cumann Gaelach and Irish & Culture Officer.
- We gathered feedback from students about the levels of support and resources available to students undertaking teaching practice in Irish-medium schools. We presented our findings to the relevant people and submitted our report/assessment to MISU.
- We organised events that aimed to promote the Irish language, such as MISU's Seachtain na Gaeilge and also Gaeilge24.
